PROFILE

- Aspiring Front-End Developer with expertise in React and Angular, dedicated to building intuitive and user-centric web applications. Known for being hardworking, adaptable, and a strong team leader with excellent communication and collaboration skills. Seeking to leverage my technical skills and collaborative approach to contribute to innovative projects and deliver outstanding user experiences

EDUCATION

- Bachelor's of Information Technology**

KKWIEER

CGPA: 9.1233/10

2021 - Present

Nashik, Maharashtra

- HSC (PCM)**

Upadhye College Of Science

Percentage: 94.67

2019 - 2021

Nashik, Maharashtra

- SSC**

Day Care Center School

Percentage: 93.40

2009 - 2019

Nashik, Maharashtra

TECHNICAL SKILLS

- Programming Languages:** C++
- Frontend Technologies, Framework, and Library:** HTML, CSS, Bootstrap, JavaScript, React.js, Angular.js
- Database:** MySQL
- Tools:** Canva, Inkscape, MS Word, MS PowerPoint
- Soft Skills:** Hardworking, Punctual, Team-Lead and Collaboration, Communication, Flexibility, Initiative, Problem-Solving

PROJECTS

- Angular Based API Integration** July 2024 - Present
Integrated OpenWeather API into an Angular application, improving user experience by delivering real-time weather updates.
 - Developing a user-friendly interface using HTML, CSS, and Bootstrap, ensuring a responsive design across various devices.
 - Implementing city search functionality, allowing users to input a city name and retrieve current weather conditions through AngularJS and API integration.
 - Optimizing data retrieval and display processes to provide accurate and timely weather information, enhancing overall application performance.
 - Utilizing JavaScript for dynamic content updates and seamless interactions, improving the overall usability of the application.
 - Tech Stack: HTML, CSS, Bootstrap, JavaScript, AngularJS, API Integration
- Business Contract Validation** July 2024
Validated business contracts by comparing them to actual contracts as part of a 4-member team under the Intel Unnati Training Program.
 - Collaborated with a team of 4 to develop a web application using Flask and Streamlit, enabling users to upload and compare business contracts efficiently.
 - Utilized spaCy and scikit-learn for NLP and machine learning, improving contract similarity detection accuracy by 20 percent.
 - Employed PyMuPDF for effective extraction and interpretation of text from contract documents, streamlining the validation process.

- Designed a responsive and user-friendly front-end interface with HTML, CSS, and JavaScript, enhancing the overall usability of the application.
- Tech Stack: HTML, CSS, JavaScript, Flask, spaCy, PyMuPDF, scikit-learn, Streamlit (Try it here)
- **React Based Restaurant Website** Apr 2024
Developed an intuitive restaurant website using React, applying a wide range of React concepts to enhance user engagement and performance.
 - Utilized advanced React features including hooks and state management to create a seamless and interactive user experience.
 - Increased user engagement by 30 percent through the implementation of a visually appealing and user-friendly UI/UX design.
 - Designed and optimized UI components, achieving a 15 percent reduction in page load time and improving overall application performance.
 - Tech Stack: React.js (Try it here)
- **Nartan Demo Dance Website** May 2023
Developed a demo website to provide a platform for learning traditional South Indian dance forms.
 - Designed and implemented a user-friendly interface using HTML, CSS, and Bootstrap to showcase traditional South Indian dance forms along with a team of 4 members.
 - Developed dynamic features with JavaScript and PHP to enhance user interaction and engagement.
 - Utilized XAMPP server for local development and testing, ensuring a stable and functional website environment.
 - Created educational content and resources to facilitate learning and appreciation of traditional dance forms.
 - Tech Stack: HTML, CSS, JavaScript, Bootstrap, PHP, XAMPP Server (Try it here)

EXPERIENCE

- **Frontend Developer and Trainee** Jan 2024 - Jul 2024
Technokraft Solutions Pvt. Ltd.
Gained comprehensive knowledge of frontend technologies and applied theoretical concepts through hands-on projects.
 - Acquired in-depth skills in various frontend technologies, including HTML, CSS, JavaScript, React.js, AngularJS, and Bootstrap.
 - Developed practical projects to implement and reinforce theoretical concepts, enhancing understanding and proficiency in frontend development.
 - Worked on real-world projects to build and refine user interfaces, contributing to the development of interactive and responsive web applications.
- **UI/UX Developer and Designer** Dec 2023 - Jan 2024
Developed user interfaces for a book composition system and created design materials using Canva and Inkscape.
 - Designed and developed the user interface for a book composition system, focusing on usability and efficient content management.
 - Created visually appealing brochures using Canva, enhancing promotional and informational materials. (Brochures Design)
 - Designed intricate Mandal art using Inkscape, contributing to the artistic and visual aspects of the project.
- **UI/UX Developer** Dec 2023 - Jan 2024
Developed a personal portfolio website and a landing page for a pizza shop, showcasing proficiency in frontend technologies.
 - Created a personal portfolio website to highlight skills, projects, and achievements with a clean and responsive design.
 - Designed and implemented a landing page for a pizza shop, focusing on user engagement and an appealing visual presentation.
 - Utilized HTML, CSS, JavaScript, and Bootstrap to ensure a polished and interactive user experience across both projects.

ACHIEVEMENTS

- **Attended Mahindra Pride Soft Skill Training** Nashik, Maharashtra
Jul 2024
